Access to flats

We'll need to enter your flat during your stay with us to keep your flat comfy and keep you safe and secure. Access to your flat will usually be restricted to normal working hours except in exceptional circumstances.

Sanctuary Staff and contractors carrying out essential maintenance and compliance works will be issued with keys to access flats where works are required.

Except in exceptional circumstances you will be notified 48hrs in advance by email when access is required.

Contractors/Staff are instructed to knock, wait for an answer, knock again and if no answer, use the keys to enter. We ask that they announce themselves when entering flats.

If you have any doubt as to the reason why a contractor or staff member is entering the flat, please contact the office straight away.

When carrying out servicing and compliance repairs in large properties, it is difficult to determine exactly how long the contractor will take in each block, therefore we will only advise the day the contractors will attend and can not be more specific with times.

Out of Hours, we will only enter your flat or bedroom if we believe that there is a risk to students, security or the good order of the building.
